FOR HERITAGE NGOS & COMMUNITY ORGANISATIONS

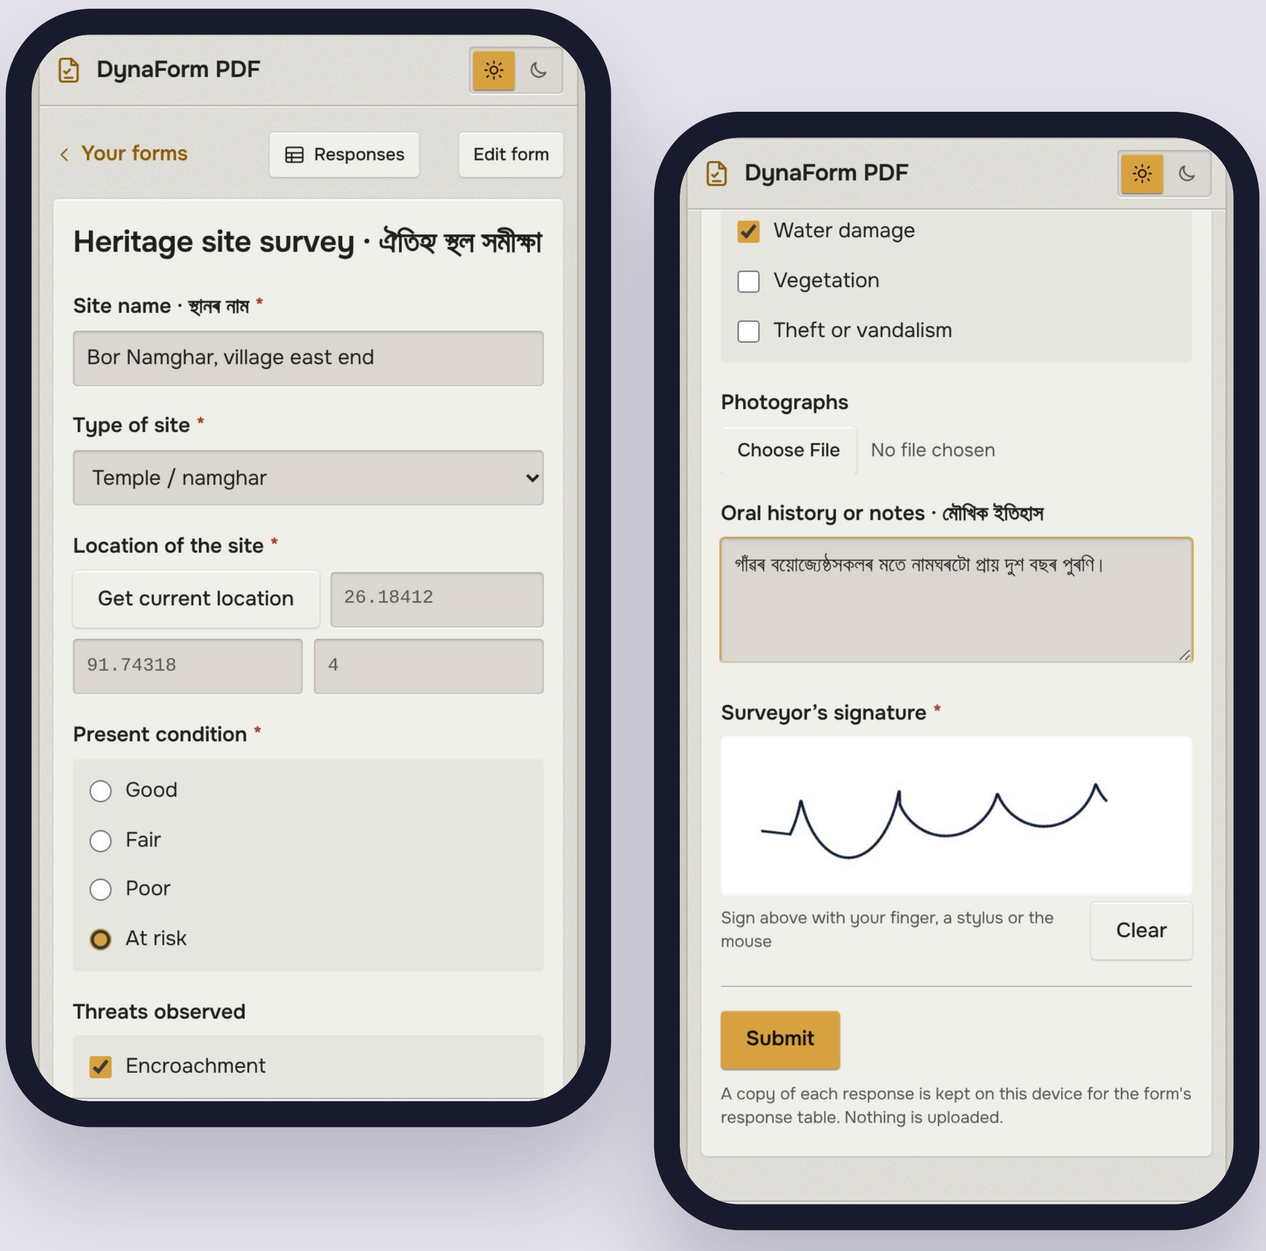

Free web app · v1.4.0

DynaForm PDF

Survey forms that work offline and answer in PDF

Gather community records without holding anyone's data.

Build a survey and share it as a link. Every answer becomes a PDF on the respondent's own phone — with GPS, photos, signatures and Assamese or Bengali text.

A sample heritage site survey, filled in on a phone

01 Nothing is uploaded

Each response stays with the person who gave it until they choose to send it — right for oral histories, consent and sensitive sites.

02 Works with no signal

Install once and fill in forms in a village, a satra or a field with no network. No server, no login.

03 অসমীয়া আৰু বাংলা in the PDF

Assamese and Bengali text keeps its conjuncts, vowel signs, ৰ and ৱ — beside GPS, photos and signatures.

04 Many PDFs, one table

Drop in the PDFs volunteers send for a table and summary, then export CSV, JSON or GeoJSON — ready for DrawGeo or QGIS.

HOW RESPONSES TRAVEL

1	2	3	4	5
Build the form	**Share it as a link**	**Fill in, even offline**	**PDF sent by WhatsApp or email**	**One table on your device**

Use it for site condition surveys · oral history records · artisan and craft registers · volunteer and consent forms · event feedback

Start your first survey with us.

Free for heritage societies, namghars, schools, cultural trusts and village committees. We'll help you design the form and gather the responses.
