Evaluator

Test a claim against sources you trust

Check the story before it becomes history.

Plaque texts, village histories, grant write-ups: test them against the archives you choose. Every point links back to the page or passage it came from.

The Trace screen, with a claim ready to test

Support
The strongest case for the claim.

Challenge
The strongest case against it.

Evaluate
Both sides, weighed in one balanced report.

Verify
Each claim graded True to False — or Unverified when your sources are silent.

01

Searches only what you trust

Your own list of archives, journals and portals — Abhilekh Patal, the Indian Culture Portal, Internet Archive, JSTOR and more — grouped by topic, plus your own PDFs and Word files.

02

Every sentence shows its source

Each point is tinted by the source it came from and numbered. A citation to a page the search never found is removed, and the report says so.

03

Ready to share

Results are kept on your device and can be copied, printed, saved as PDF or opened in Word for a report or a board meeting.

04

Your keys, your device

Runs on free tiers of Gemini, Groq, Mistral or OpenRouter with a Tavily search key. Keys stay in one settings file on your device.

USE IT FOR

Checking plaque and signboard text · Heritage nominations and grant write-ups · Disputed dates, names and founders · Stories before they are published · Teaching students to weigh evidence

Put your archive to work.

Free for heritage societies, museums, schools and cultural trusts. We'll help you set up your keys and your list of trusted sources. Needs an internet connection.
