FOR HERITAGE NGOS & COMMUNITY ORGANISATIONS

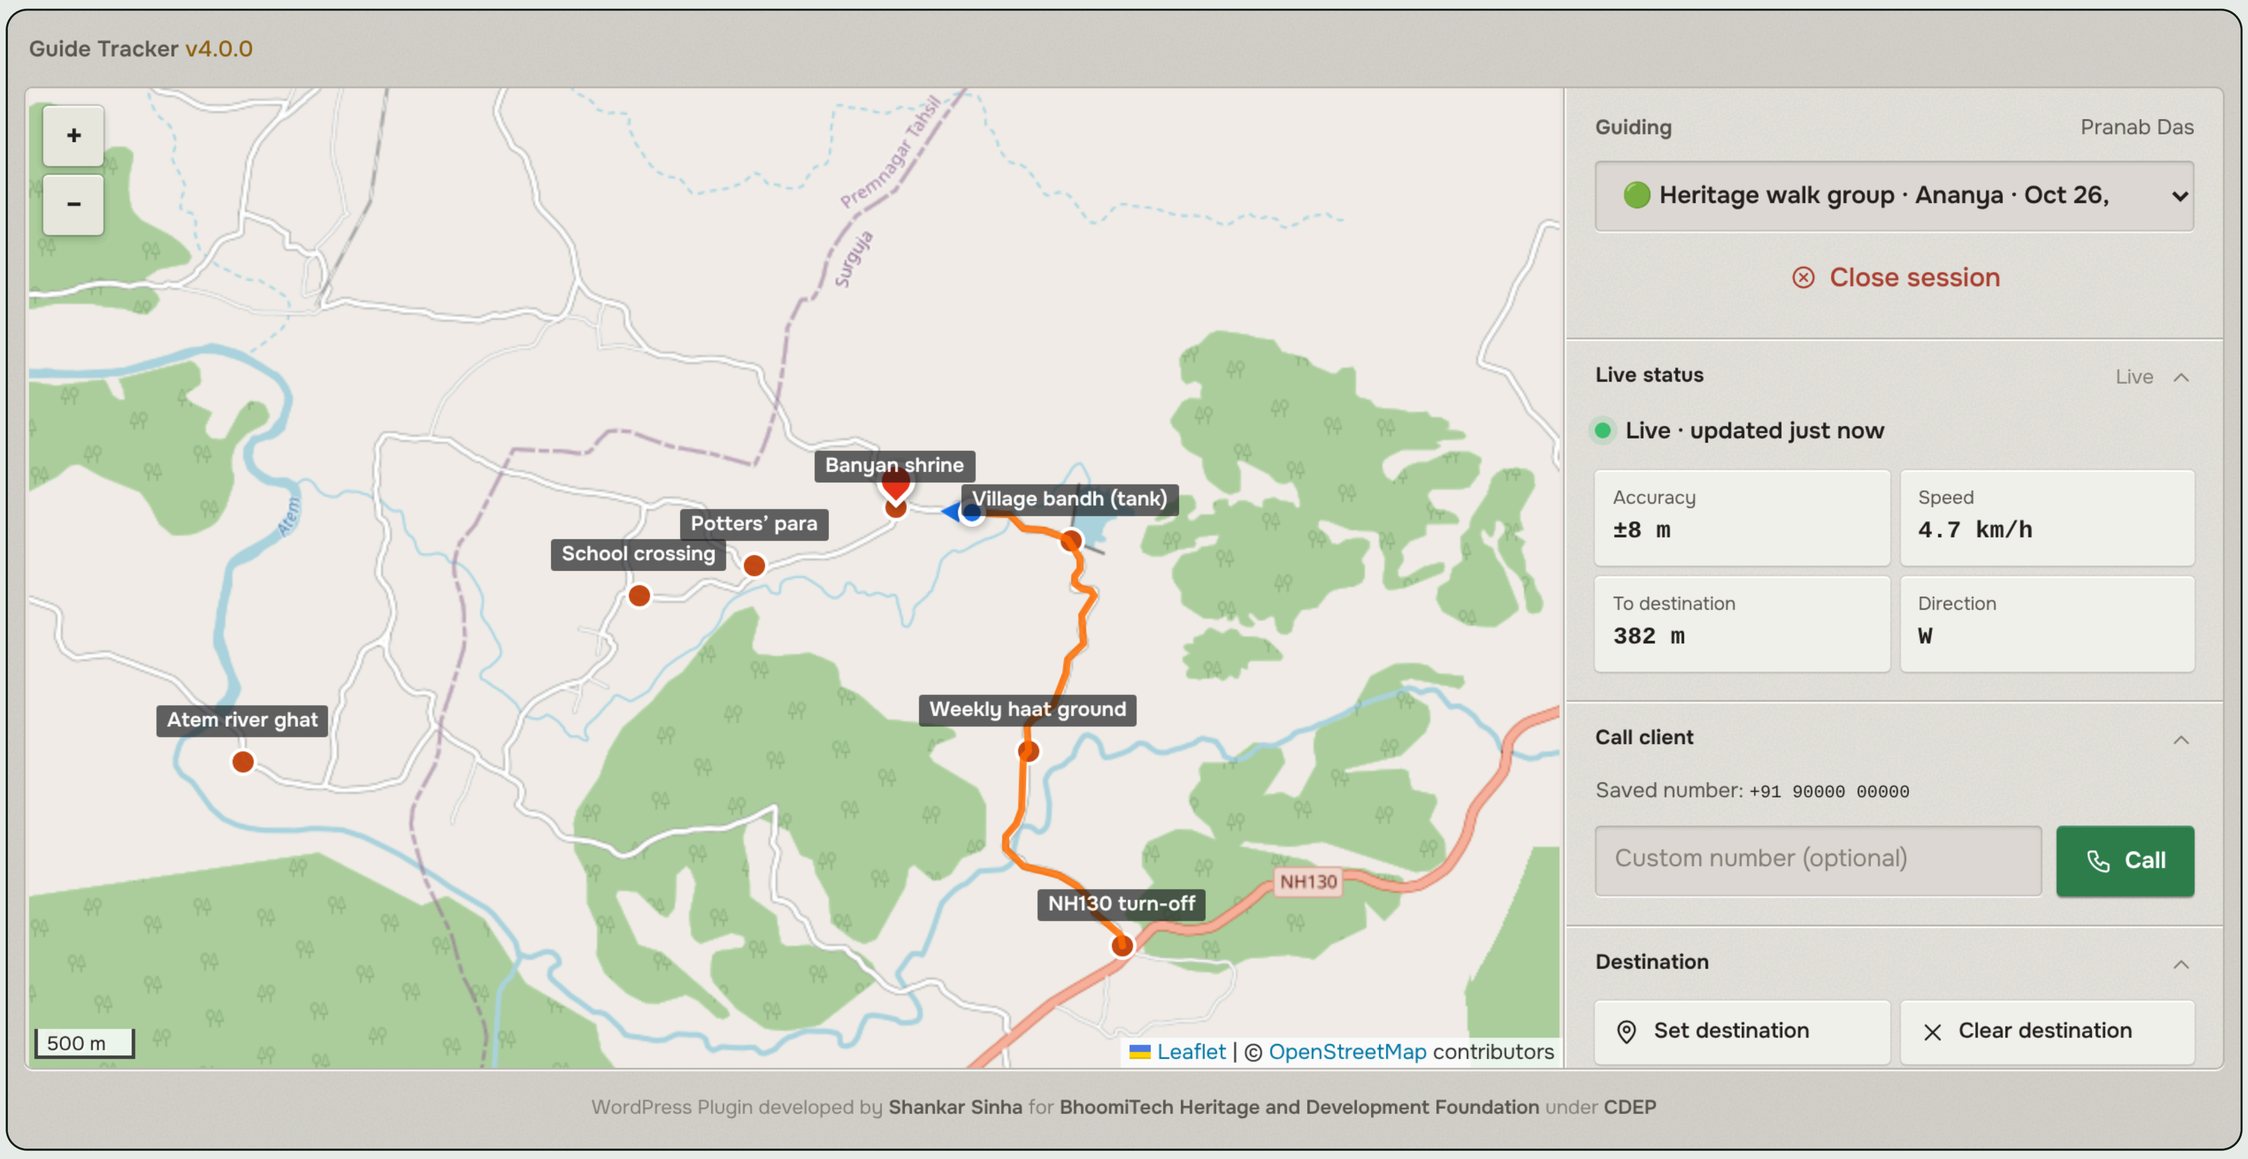

Free WordPress plugin · v4.0.0

Guide Tracker

See where your visitors are, and bring them to the right place

Guide every group to the site, live.

Visitors share their location from a page on your own website. Your guide watches them on a map, sets where they should go and calls them in one tap.

A sample visitor group on a heritage walk, 382 m from its next stop · Map © OpenStreetMap contributors

01

Live on the map

Position, accuracy, heading and the route walked so far, with distance and direction to the destination.

02

Your sites, ready to pick

Add gates, temples and viewpoints as map layers, set one as the destination, or send a Street View on WhatsApp.

03

Made for weak signal

Phones keep the route while offline and send it later. Download any route as GeoJSON or KML.

USE IT FOR

Guided heritage walks and site visits · Bringing visitor groups to the right gate · School and pilgrim group trips · Recording walked routes for your archive

Guide your visitors with us.

Free for heritage societies, museums, site trusts, tour groups and village committees. We'll help you install it on your website and add your guides.
