FOR HERITAGE NGOS & COMMUNITY ORGANISATIONS

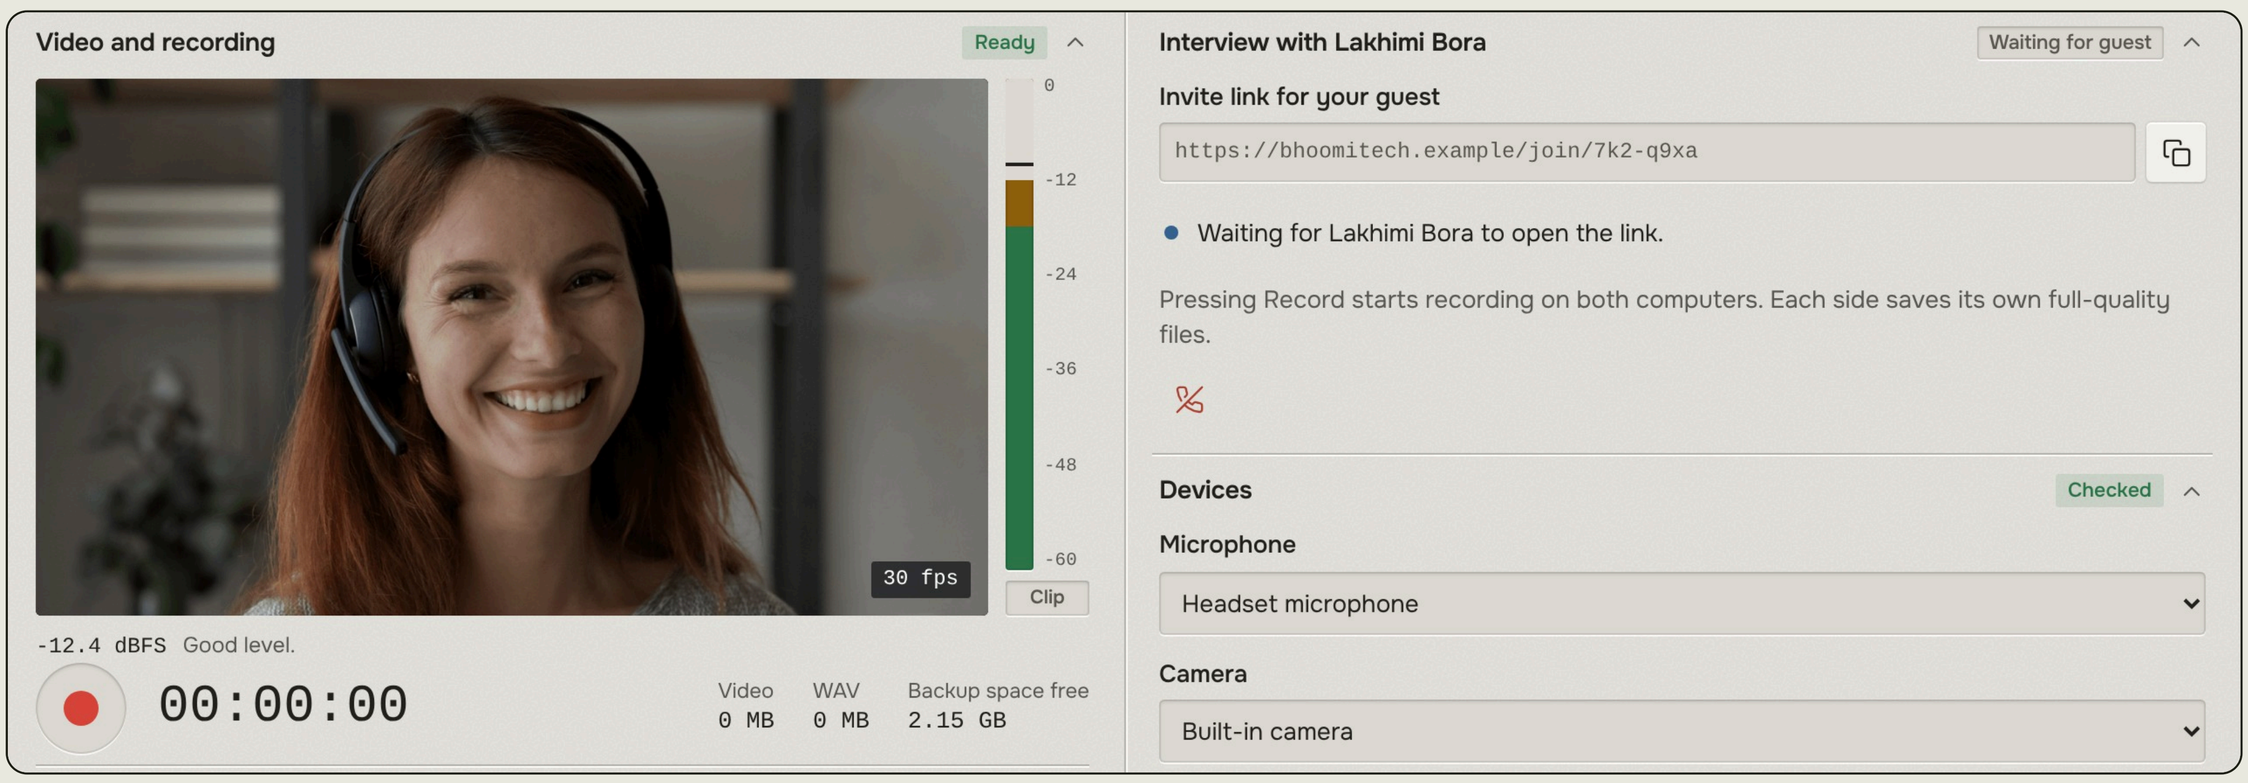

Free WordPress plugin · v1.5.1

Interview Recorder

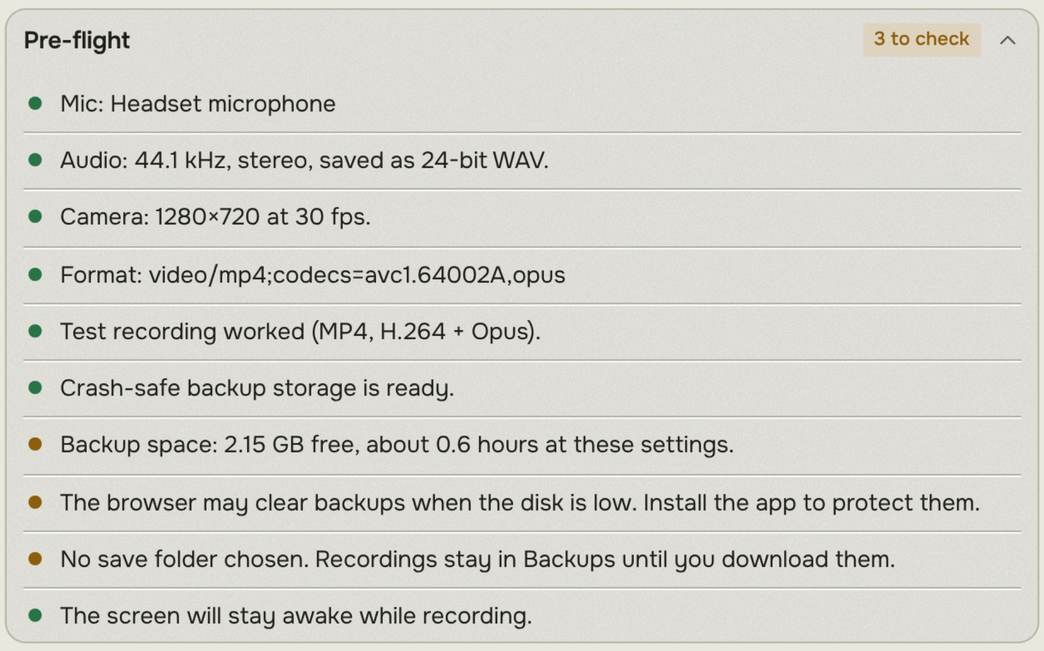

Oral histories in full quality, from wherever your guest is

Record the stories before they're gone.

Send your guest a link. When you press Record, both computers record their own camera and microphone, and the guest's files come straight to you.

The real recorder, ready for an interview: invite link sent, devices checked, sound level good

A pre-flight check before every interview

01 Full quality on both ends

Each side records its own video and a 24-bit WAV. The files line up at 0:00 in any editor.

02 A weak call doesn't spoil it

The call only connects you. Recordings are made on each computer, and the guest's files reach you directly, resuming if the line drops.

03 Your site, your recordings

Runs on your WordPress site; video never passes through it. Guests just open a link in Chrome or Edge.

USE IT FOR

Oral histories with elders · Interviews with artisans and performers · Reaching families and scholars far away · Heritage podcasts and radio · Recording songs, recitations and stories

Record your first oral history with us.

Free for heritage societies, museums, schools, cultural trusts and community archives. We'll help you set it up on your site and plan your first interviews.
