FOR HERITAGE NGOS & COMMUNITY ORGANISATIONS

Free web app · v2.3.2

LexiPic

A picture dictionary for your community's words

Every word, with its picture and its voice.

Photograph the thing, record an elder saying its name, and write it in script and Roman letters. LexiPic keeps them together on your phone, even offline.

A real word set in LexiPic: eight Assamese words, each with a photo, a recording, the script and the Roman spelling

01

Roman or script, either way

Type one and the other fills in. Keyboards for Bishnupriya Manipuri and Assamese are built in, and you can add your own.

02

Hear it said right

Record each word's pronunciation and play it from the card. Take the photo with the phone's camera on the spot.

03

Share sets, keep backups

Send a set to another phone or a website as one file, and back up everything at once. Nothing is uploaded.

USE IT FOR

Picture dictionaries for endangered languages · Mother-tongue word cards for children · Local names of fish, fruits, plants and tools · Elders' pronunciation, kept for good

Start your word archive with us.

Free for heritage societies, language groups, schools, cultural trusts and village committees. We'll help you set up your language and your first word sets.
