Narrative Atlas

PASTE
MAP
CHECK

Origin stories, mapped as told and checked against history

Follow the story across the land.

Paste a passage of research, or open a PDF or Word file, and see its places and journeys drawn on a map. A critical review flags where the story departs from established history.

Illustration: a sample migration narrative, plotted as told, with a period route and two doubts flagged for checking.

01

Plotted as narrated

Places, journeys and regions drawn as the text tells them, with the narrator's own words on each place.

02

A critical review

Flags where the story departs from established history, checked against your files and trusted sites.

03

Routes of the period

Paths a traveller of that era would likely have taken, shaped by rivers and terrain, and played in order.

04

From your own files

Open a PDF, Word, text or Markdown file. Long texts are mapped one section at a time.

05

Your choice of AI

Use your own key with Gemini, Claude, OpenAI and others, or run free on your computer with Ollama.

06

Opens in any GIS

Export GeoJSON with styles and popups for QGIS, geojson.io or uMap. Your files stay on your device.

USE IT FOR

Migration histories · Community origin stories · Travel narratives · Oral-history research · Heritage publications · Student dissertations

Map your community's story with us.

Free for heritage societies, museums, schools, cultural trusts and village committees.
We'll help you set it up and map your first narrative.
