Free web app · v1.2.0

# OSM Digitizer

*Free map data for your area, ready for any GIS or CAD tool*

## Your village's roads, rivers and homes, mapped.

Pick an area and pull its map layers from OpenStreetMap, or trace them from an old printed map. Every extraction is kept on the device, to export again offline.

Sample layers over an OpenStreetMap basemap near Premnagar, Surguja · Map © OpenStreetMap contributors

01

### Pick an area, choose layers

Search a place or draw a box, then take buildings, roads, rivers, water bodies, land use and village names.

02

### Trace from old maps

Place a scanned toposheet or a photo of a printed map with a few points, tap its colours, and trace roads and rivers.

03

### Export for any tool

GeoJSON, KML for Google Earth, Shapefile with Assamese and Bengali names intact, or DXF in UTM metres for CAD.

USE IT FOR

Base maps for heritage surveys · Village resource and cultural maps · Digitising old toposheets and village maps · Site drawings for conservation architects

## Map your heritage landscape with us.

Free for heritage societies, museums, schools, cultural trusts and village committees. We'll help you pull your first area and open it in your GIS or CAD software.
