Waypost

Plan, ride and report the routes your team travels

Take people along the route, stop by stop.

Build a route with its stops and play it as a ride on the map, pausing at each place. Keep your team's places and tracks in one project, and collect reports from the field.

A sample heritage walk paused at its third stop, near Premnagar, Surguja · Map © OpenStreetMap contributors

01

Ride the route

Set the stops, pause at each one, and link videos you filmed so they play along that stretch.

02

Your places, your words

Name categories the way your team does, import GPX, KML or CSV, and plan routes on your own tracks.

03

Reports from phones

Waypost Reporter sends location, photo and category, and keeps reports until there is signal.

USE IT FOR

Heritage walks and trail guides · Monitoring visits to sites · Field reports on damage and encroachment · Route briefings for guides and volunteers

Plan your heritage routes with us.

Free for heritage societies, museums, schools, cultural trusts and village committees. We'll help you map your first route and set up your team's phones.
